HOST A HERO DAY!

Host a 'Hero Day' at your school to raise funds for Ronald McDonald House Charities GWS

This year more than ever we understand the value of our everyday heroes. Our firefighters, teachers, nurses and doctors all fighting on the front line. Show your students that they too can be everyday heroes by helping ensure seriously ill children and their families can stay close during tough times.

Host a Hero Day anytime that suits your school by encouraging your students and teachers to dress as their favourite everyday hero and make a donation. All funds raised will ensure sick kids will have a home-away-from-home whilst they receive treatment.

Meet Ava, just one of our every day heroes.

At just four years old, Ava was diagnosed with Acute Lymphoblastic Leukaemia, an aggressive form of blood cancer. Her family's world was immediately turned upside-down. Ronald McDonald House Charities GWS was able to support Ava and her family by providing them with a home-away from home for 280 nights whilst she received critical treatment.

***"Ronald McDonald House Charities
helped us not only survive but thrive
during the hardest time in our lives"
Ava's Dad, Andrew***

It is imperative that we continue to raise funds to support families like Ava's. These families have no choice but to be close to the hospital to receive vital care for their sick children.

HOST A HERO DAY!

Register your school today! Visit: rmhcgws.org.au/hero

How to get your school involved.

It's simple to get involved, host a multi-day any day that suits your school and ask students and teachers to dress as their favourite everyday hero or wear orange & blue and make a donation. Why not go the extra mile by having other fundraising activities on the day, the sky's the limit!

Collect the funds raised and pay directly to Ronald McDonald House Charities GWS by bank transfer or cheque. You can also access Hero Day resources and pay in your fundraising online here: rmhcgws.org.au/hero

Your students can also write a message of hope and we'll stick them on the wall at Ronald McDonald House for all seriously ill children and their families to see.

How your school can help sick kids like Ava.

In the past year alone, over 2,100 families from regional and rural Australia stayed at a Ronald McDonald House Westmead. Allowing parents and carers to focus on what is most important, the health of their child. The funds your school raise will ensure this vital service will continue.
